## Club Meeting With Mr. and Mrs. Ellis

John the Baptist club composed of the west side members met last meeting with Mr. and Mrs. R. P. F. Ellis, West LaRue street. The meetings of this division are held weekly and have become interesting not only to members but friends who find it convenient to drop in. It is observed that quite a sociable contact is formed through the existence of the many church clubs now going on, and incidentally entertaining literary and musical numbers and features are introduced at the various meetings. The members and friends pay "dues" that find their way to the main church treasury, and before the gathering disperses the entertainers serve light refreshments and the next meeting passes on to another member.

All seemed to have enjoyed the evening with Mr. and Mrs. Ellis, the debate on "Love or Money", the phonograph music and the refreshment service. Our eyes never left the buffet which contained some appealing suggestions of wetter days, but one by one, each had to leave the dining-room, but not unpossessed of the old time longing hankering desire.

## Housekeepers Poultry Club

I wish to organize a poultry club among the housekeepers. \$25.00 will be given away thus: the one making the most on her poultry yard counting those used for table use and those sold, will be given \$10.00, 2nd \$7.00, 3rd \$5.00, 4th \$3.00, the reports to be made at the Fair grounds next fall. No charges to enter the contest. No man allowed to enter.

Persons wishing to join or desiring further information will write the promoter at 918 N. Sixth Avenue, William Josiah Ballou, pastor Mr. Olive Baptist church. Entrance in the club must be within the next 30 days.

## ALLEN CHAPEL NEWS

Last Sunday was a splendid day for the Lord with us, great meetings both morning and evening. We paid Big Zion a visit in the afternoon. Dr. Hamblin expressed himself as being well pleased with what we tried to do for them.

Quarterly conference Friday night. We are asking everybody to come out, especially our members and more especially the officers with their reports. All members must see their leaders and get the regular quarterly meeting ticket. Remember, the current goes on whatever happens, or we cannot keep up our expenses, and too, don't forget that our little rally is only two weeks off and no one who loves their church can afford to say that they could not pay the small amount asked for, so let us all get ready for that. Again, everybody is invited to the quarterly meeting Sunday, to hear the great preacher, our presiding elder, Rev. Dr. J. M. Wise. He is an old time gospel preacher, hear him.

These ladies gave some helpful talk to this society and praised them very highly for the noble work that they are doing. They also expressed themselves as having enjoyed the splendid program these missionary sisters conducted and asked them to go on in the way they are going in the missionary work and great will be their reward.

## RESPECT FOR THE LAW

(From the Eastern, Pa. Press. of January 20, 1925)

According to reliable statistical information, there were in 1919 86 Negroes lynched in the United States. In 1923 the number of lynchings had fallen to 28, and last year only 16 were reported. There is little doubt that the decrease was due to the threatened passage by Congress of the anti-lynching law, advocated in the National Association for the Advancement of Colored People.

If the prospective enactment of such a righteous law has such an effect, what will be the result of its passage? Many an innocent Negro has been murdered by a mob, and every such crime begets another. Pass the anti-lynching bill and put the country on record as opposed to such brutal affairs as the murder of Negroes or the tarring and feathering of white women. Teach respect for the law.

## "He Doeth All Things Well"

"All things work together for good to them that love God."—Romans 8:28.

The Jewish Talmud says that Rabbi Akiba, when once journeying had with him a rooster, an ass, and a lamp. At nightfall he sought shelter in a village, but was refused hospitality. "All that God does is well," he said, and proceeded to the forest. There he lit the lamp, but the wind would not suffer it to burn. "All that God does is well," he repeated. The ass then escaped and was quickly devoured by wild beasts and even to this he made the same pious response. Then the fowl flew away, without eliciting so much as a murmur from his lips. But in the morning he perceived that the enemy's troops had passed that way, the village was destroyed, and he owed his own safety to the darkness and silence. If the lamp had burned, or if the ass had brayed, or if the cock had crowed, he would have been noticed, and might have been instantly killed. So that, as he set out upon his journey once more, it was with a repetition of the old saying, "Christian Mission Magazine."

## Club's Annual Election

The annual election of officers of the "White Rose Whist Club" was held Thursday night January 29, 1925, at the residence of Mr. Morris Lucky. The following were elected for the term.

Robt. T. O'Bannon, president  
Chas. Chandler, vice-president  
Russell McLaughlin, secretary  
Ellery Crane, assistant secretary  
Napoleon Rancier, treasurer  
Harry Whittaker, S. A. A.  
After the election Mr. Lucky served a delicious menu. Mr. Wm. Bradford will be host at the next meeting.

## Negro Wealth Now Two Billion Dollars

Monroe N. Work points out number of achievements in compiling latest Negro Year Book.

Also Points Out Decline in Death Rate and Tendency to Act Independent in Politics

According to the latest Negro Year Book which has just been compiled by Monroe N. Work, of Tuskegee Institute, the wealth of the Negro in America today is above the \$2,000,000,000 mark, which is one and a half times as much as it was in 1912.

The amount expended in 1924 for Negro education totaled \$40,000,000 as contrasted with \$13,576,571 in 1912. Up to that year about 5,000 Negroes had completed college courses. In the last 12 years the number has doubled.

During the past decade the Negro according to Mr. Work, has shown a declining death rate and an increasing health span. In 1912 the death rate 1,000 was 22.9, while in 1922, 10 years later, it was 15.7 per 1,000.

For Negro policy-holders in the Metropolitan Life Insurance company in 1912 the average expectancy of life for males and females of all ages from 2 years was 41.3 years, in 1922 the expectancy for males was 45.3 years and for females 46.1 years.

Mr. Work noticed a tendency in politics toward independence on the part of the Negro voter, and an increasing tendency to vote the Democratic ticket locally. He also demonstrated a large increase in the number of Negroes elected to public office.

Other features set forth in the year book are the entry and activity of colored women in politics, the number of Negroes in the South allowed to vote, the increased effort of Negroes to break down the "white primary" in the South, and the population shifts of the last 13 years.

## What is a Race? Asks Boas in The Nation on Jan. 28

(N. A. A. C. P. Press Service)

Opening a series of articles on the "Nordic Myth", to be published in The Nation, Dr. Franz Boas professor of Anthropology at Columbia University, analyses present concepts of race, and race prejudice in the issue of Jan. 28. Dr. Boas denied that hereditary mental distinctions between races have ever been established. He says:

"The occurrence of hereditary mental traits that belong to a particular race has never been proved. The available evidence makes it much more likely that the same mental traits appear in varying distribution among the principal racial groups. The behavior of an individual is therefore not determined by his racial affiliation, but by the character of his ancestry and his cultural environment. We may judge of the mental characteristics of individuals and families, but not of races."

Dr. Boas points out that children do not have race antagonism until they are taught to have it: "As the child grows up the dividing line between the races is impressed upon it and in this way the race consciousness develops until it becomes a purely automatic reaction which evokes the same intensity of feeling as the so-called instinctive reactions."

Dr. Boas further points out that it is impossible to frame such a description of any race that all of its members will be included: "A whole racial group can never be described by a few descriptive terms, because there will always be many individ-

uals of descriptive types. It is our impression that the Swede is blond, blue eyed tall, and longheaded; but many Swedes do not conform to this description. We cannot assign one individual to one race, another to another, because we do not know the degree of variability found in the ancestral isolated race, and on account of the long continued mixture the characteristics of the parental races will appear in varying combinations in each individual. All attempts to establish among members of the same social group correlation between mental character and bodily form have failed."

Asserting that "many hereditary characteristics are not racial in character, but must be assigned to family strains," Dr. Boas concludes that: "If this be true, it is clear that any generalized characterization of a race must be misleading. It may be possible to characterize family lines, but the assumption of general racial characteristics, anatomical, physiological, or mental, excepting those that belong to the race as a whole, is arbitrarily made."

## The "Afro" Making Great Strides

In returning from Jacksonville where he attended the directors meeting of the Afro-American Insurance Company, Dr. Jas. R. Polkinghorne reports the holding of the best session in the company's history. Of great interest to the stockholders is the investment into a venture which the past year declared a dividend of 12 per cent. The company at present has assets of \$316,000, a surplus of \$95,000 and has made mortgages on Negro homes to the amount of \$74,000. Notably among the actions of this great meeting was the decision to establish a bonus fund to employees to be awarded annually in proportionate amounts out of the accrued profits of the company. Among the interesting activities of this company were noted the successful launching and permanent establishment of an Employees Pension Bureau for the support and maintenance of disabled employees. Group life insurance for each and every employee in amounts from five hundred to two thousand, five hundred dollars to be carried without cost.

Pensacolians identified with the managerial division of the company beside Dr. Polkinghorne are F. W. Barnes who is assistant cashier and W. J. Bennett, a member of the advisory board.

## WHERE IS OPPORTUNITY?

Few of us are gifted with the vision necessary to see opportunities that lie nearest at hand. An excellent illustration of this is a story told by Professor Agassiz, and retold time and again by a famous lecturer.

There was once a man who owned a farm in Pennsylvania who became dissatisfied with farming. This was in the early days of the oil business, and so he applied himself to all the aspects of the then new and promising industry. He learned how petroleum was formed, how refined and how marketed. In short he learned all he could about the theory and then he sold his farm for \$833. Shortly after the sale, the new owner went over the place to look after facilities for watering stock. He found that his predecessor had fixed a plank across the surface of a little stream running through the farm, and this plank was set at the right depth to hold back a black scum through which cattle would not put their noses.

This was unusual. With the assistance of experts, he conducted an investigation. The black scum they discovered, was petroleum, and the farm it was later found was one of the richest oil fields of the East—an oil field that geologists later declared was worth \$100,000,000 to the state of Pennsylvania. Here the man who studied theory of finding, refining, and marketing coal oil had been damming back a stream that was pouring forth millions in oil. The city of Titusville stands today on the farm that he sold for \$833—in order to go far away places where he thought opportunity was awaiting him.

Apparently the greatest pastures are always further up the hill. "Distance lends enchantment". In other words we think we must travel far away to find opportunities.

But opportunity is everywhere—nearby and far away. If you lack the necessary vision you will not find fame or fortune by traveling to the far corners of the world. If you have vision you will probably find just what you most desire right in one's own midst.

"When Greek Meets Greek." The expression "When Greek Meets Greek," slightly altered, is taken from the line, "When Greeks meet Greeks, then was the end of war." The quotation is from the drama of "The Greeks on the Great" by Nathaniel Hawthorne (1855-1892), and refers to the stubborn resistance offered by the cities of Greece to Philip and Alexander of Macedonia.

## AN EVENING WITH THE YOUNG LADIES CLUB

Pandora's curiosity, as fable records, caused her no end of trouble. The editor's curiosity rather reversed this tradition by bringing to him and some other gentlemen, a charming evening with the young ladies' club, an exclusive organization as to kind, of recent appearance among several of the Pensacola young ladies. This club may now be referred to by specific name, the young ladies having found after an extensive search in ancient and modern lore of divers tongues, a title suitable to their fancy. It is the "Una Voca." We asked the winsome little lady for a translation, or a simpler version, and we were told "One Voice." We are happy to make the acquaintance of the Una Voca, and again give expression of the pleasure of our presence with its members on a recent Monday evening.

Just why "One Voice" was such a suitable name for the ladies' club has not been made aware to us. Perhaps in their meetings, the ladies exercise the feminine foible of all talking at the same time. The evening mentioned was their one at play; the Una Voca has other purposes for its existence, which is quite alike work that will promote their educational and material usefulness of its members and the community which surrounds it.

The club is exclusive only in that it is limited to the unmarried ladies, a similar organization being that of the New Idea Art Club, and the other female organization, composed of the widows. Another restricted organization now being formed is that of the unmarried men. Varying ages are observed in membership of the "Una Voca", but that is no justification for the doctor present saying that the age limit of the young lady class had risen considerably and perceptibly since his day. Of course the insurance man was one voice with the doctor, and they are sure not to have another invitation to the ladies' special evenings. That will be fine and make possible larger portions for the scribe of such delicious refreshments and to be served by such a pleasing lass as Miss Goldsmith, at whose Little Bayou home the meeting took place.

At any rate we have not been able to account for their presence on this occasion. The presence of say, Mr. Thompson would be quite expected, from latest signs, through that of Miss Thomas; any knowing one could else but pair Mr. Barnwell off with Miss Powell. For Mr. Sunday look to Miss Jordan. It was quite apparent that Miss Goldsmith's interest was in a House aside from her own house, and hence in this wise we accounted for the presence of Mr. House, and so on down the list of gents, until we return to this same extremely popular promiscuous, cosmopolitan, omnipresent, inseparable two. Why even prominent absences offered less difficulty in their solution than the presence of these two gentlemen. As an instance, Mr. Hill was absent, but it was not necessary to ponder that a moment, for so was the urbane president. The occasion was that happy that no one would have chosen absence for any reason as an alternative, and after all, we don't blame the two ineligible or any one else for making an effort to have been present.

All sterilized, clean towels used at QUIGLEY'S barber shop. We have a very inviting place for the ladies to have their hair bobbed. 3 experts at the trade; no waiting.

## SOMETHING NEW IN TASTY DISHES

"See that your kitchen fire be bright  
And your hands be neat and skilled;  
For the love of man oft takes its flight,  
If his stomach be not well filled."

**ANGEL CAKE**—(especially suitable for the men)—Sift one-half cup flour; whip with whites of six eggs until they stand alone; then gradually stir into them half cup of granulated sugar and sifted flour. Beat very hard, turn into a clean, slightly greased pan with a funnel in the center. Bake in a steady oven. Then turn the pan upside down upon a clean towel, and as the cake cools, it will slip out of the pan. When cold ice the bottom and sides of the loaf.

**BET GREENS**—Wash young beets clean; do not separate roots from leaves, and look over carefully to see that no bugs, worms, young snakes or other varmints remain. Boil in salted water from half to three-quarters of an hour. Take out and drain in a colander. Serve hot and to taste with butter, salt pepper and vinegar.

**EGGS—SWISS STYLE**—Cover the bottom of a dish with two ounces of butter and on this scatter grated cheese; drop the eggs upon the cheese without breaking the yolks; season to taste; pour over the eggs a little cream and sprinkle with two ounces of grated cheese. Set in a moderate oven for about fifteen minutes.

Mrs. P. H. Robinson tested out a pretty, appetizing and new dish on some friends at dinner Sunday. It is sweet potatoes, and if we can guess the process of preparation aright, it would be much like making a potato pudding, minus the eggs, and perhaps not quite as sweet as for pudding. When levelled off in the baking dish, in which dish it is also served, the mixture is covered with marshmallows, and placed in a moderate oven until the marshmallows are toasted a delicate brown.

**MAGIC SUPPER BILL OR FARE**—Here are ten items that make up a bill of fare, A Chilly Reception, a Link of Friendship, Symptoms of Rejected Love, Splinters of Fun, Adam's Ale, a Magic Circle, A piece of the Moon, Forbidden Fruit, Preacher's Delight, a Hot Time.

The first one that sends to The Citizen office the correct list for which the items in the above paragraph stand, will receive a prize. To furnish an example, "Forbidden Fruit" is an apple.

Church.

the Ladies Board.

ence.

## Tricked Their Friends

Invited to a party but before the  
evening spent itself, those present  
found that a marriage was to occur  
and could not acknowledge that a  
great surprise had been sprung on  
them. The contracting parties  
were Miss Katie Porter, well known  
here, and quite popular in the con-  
gregation of Mt. Olive Baptist church  
and Mr. J. T. McDuffie, who arrived  
from Detroit, Mich., the wedding  
day, which was Dec. 23.

Mr. and Mrs. McDuffie are to re-  
main in the south until the opening  
of the spring, and until then are  
alternating their stay between Pen-  
sacola and Milton with relatives in  
each city.

Rev. Ballou, Mt. Olive pastor, of-  
ficiated at the ceremony.

## CARD OF THANKS

We take this method of thanking  
our friends for their kindness during  
the illness and death of my dear  
father. We are especially grateful  
for the floral designs and courteous  
service of our many friends and Mr.  
Morris, the undertaker.

Signed:

Mrs. Sina Brantley,  
Mrs. Mary Brantley, daughter.  
Mrs. Laila Jones.  
Mr. Tom Jones

Miss Edna Williams,  
Mr. Carl Hamilton (of Albion,  
Michigan.)

## Teachers Surprise Co- worker on Birthday

Just as the lady in her DeVillier  
street home was testing her mental  
capacities on some cross word puz-  
zles, the evening of the 22 ult., an  
episode yet more puzzling, was  
suddenly enacted, which for the  
moment quite destroyed her usual  
easy temperament and accustomed  
equipoise. Several friends had sur-  
reptitiously entered the room and  
with a large cake in hand, other  
refreshments and tokens of a more  
material character, they had come  
to remind her and with her, cele-  
brate her birthday. Recovery of  
poise not yet being made, the only  
object to her of most interest was  
the number of candles on that cake.  
Upon the lighted tapers her eyes  
kept perplexingly riveted until the  
count began. 12-3, and when she  
reached 30, she seemed only half  
way, it requiring fifty counts to take  
in all the candles. Mrs. Williams  
made no denials or confessions, but  
joined in agreeably with her teach-  
er co-workers and other friends, and  
a happy occasion issued, other par-  
ticipants thereto, of course includ-  
ing the Doctor and other members  
of the family.

Knowing ones assure the pro-  
moters of the birthday surprise that  
the cake was none too large nor  
the candles none too many and that  
the missing of a year or two one  
way or the other would be of no  
great consequence, for the larger  
the cake, the larger the individual  
portions, and the more the candles,  
the keener the fun. B. B. Gilbert  
assures the guessers that they are  
correct 90 per cent and better and  
on future evenings should lend their  
guessing ability to Mrs. Williams in  
solving her cross-word puzzles.

## Methodist Ministers Alliance

The installation of the officers  
of the Methodist Ministers Al-  
liance took place at Saint. Paul  
M. E. church on Wednesday even-  
ing. At the hour appointed the  
auditorium was well crowded and a  
choir made up from various churches  
under the leadership of Dr. Pickens.  
The sermon was delivered by the  
Rev. J. W. Walker, from the sub-  
ject, "The Minister and His Mission."  
The collection was lifted and the  
officers were installed by Dr. J. Lee  
Pickens, who proved himself equal  
to the task.

This body of ministers meets each  
Tuesday at St. Paul.

### O WONDERFUL HORSE

"O Horse, you are a wonderful thing; no button to push, no horn to honk; you start yourself, no clutch to slip, no spark to miss, no gears to strip; no license-buying every year, with plates to screw on front and rear; no gas bill climbing up each day, stealing the joy of life away; no speed cops chugging in your rear, yelling summons in your ear. Your inner tubes are all O. K. and, thank the Lord, they stay that way; your spark plugs never miss and fuss; your motor never makes us cuss. Your frame is good for many a mile; your body never changes style. You want are few and easy met; you've something on the auto yet!"—American Forestry.

A band of matrons we  
 Who aim so high so well;  
 We falter not to do the right  
 And cry aloud, excel—excel.  
 With needle, book and pen  
 We make each moment tell  
 How much it means to know the art  
 And every day excel—excel.

New ideas do we carve  
 And we can ne'er forgettell,  
 Just what will be the next surprise  
 But then it does excel—excel.  
 For charity we stand  
 We do our bit so well;  
 We do and dare as matrons should  
 N. I. A. & S. excel—excel (Tune "Forever Thine")
